NEW HOME IN PICTURESQUE RURAL SETTING

Set in a private location, this recently finished home offers a tree filled outlook from every room.

It includes a spacious kitchen with quality finish including stone benchtops, omega appliances & generous walk-in pantry.

Adjoining this is a sun filled family room with porcelain tiles and formal lounge room, both with direct access to the alfresco area & outdoors.

There are 3 bedrooms with BIR & study desks, the main with WIR & ensuite.

The well-designed study area offers an abundance of space & practicality.

The auto double garage with internal access & ducted A/C complete this thoughtfully designed home.
